

## Australian Defence Force - ARMY

### MINIMUM FITNESS LEVEL REQUIREMENTS by Age and Gender

#### FEMALES - Shuttle 7.5 + ...

Age	Push-ups (number)	Sit-ups (number)	2.4 km Run (minutes)	5 km Walk (minutes)
<b>25 and under</b>	21	70	13:30	
<b>26-30</b>	18	65	14:00	
<b>31-35</b>	15	57	14:30	
<b>36-40</b>	10	50	15:00	
<b>41-45</b>	7	30	15:30	45:00
<b>46-50</b>	3	20	16:00	47:00
<b>51 and over</b>	3	15	16:30	47:00

**Minimum Basic Fitness Assessment performance standards – females**

#### MALES - Shuttle 7.5 + ...

Age	Push-ups (number)	Sit-ups (number)	2.4 km Run (minutes)	5 km Walk (minutes)
<b>25 and under</b>	40	70	11:18	
<b>26-30</b>	35	65	11:48	
<b>31-35</b>	30	57	12:18	
<b>36-40</b>	25	50	12:42	
<b>41-45</b>	20	30	13:12	44:00
<b>46-50</b>	10	20	13:48	45:00
<b>51 and over</b>	6	15	14:30	45:00

**Minimum Basic Fitness Assessment performance standards - males**

## The Shuttle test (Beep test)

***(YouTube video available on our Channel – 1isho).***

You run to and fro - a shuttle test - along a 20 metre track, keeping up with a series of beeps on a recording (MP3 downloadable from our site). The timing of the beeps starts off slowly and gradually gets faster, so it gets harder and harder to keep up the required speed.

When you can no longer keep up the required speed you stop, and this provides a good indication of your current aerobic fitness level.

For Army, the level for both male and female is Level 7.5. This equals 56 shuttles or a total of 1120 metres in 6 minutes 30 seconds. (YouTube Video available on our Channel – 1isho).

## Push-ups

**The correct push-up technique is as follows:**

***(YouTube video available on our Channel – 1isho).***

1. To start, your toes should be on the ground, feet together or shoulder width apart and palms flat. Your back should be straight and you can either look forward or down. Your arms should be in the lock position.
2. To reach the down position, keep your body straight then bend your arms to a 90 degree angle from shoulder to elbow. After this has been achieved, push your body back to the full arm lock position. This is one push-up.
3. You can rest in either the full arm lock position or in the 90 degree position.
4. Army candidates have a time limit of 2 minutes to complete the required number of push-ups. You choose your own speed (i.e. there is no “soundtrack”)

## Sit-ups

**The correct sit-up technique is as follows:**

***(YouTube video available on our Channel – 1isho).***

1. To start, your legs must be bent at 90 degrees and your feet are either flat or with heels on the ground. Your feet can be either held or anchored.
2. Keep your arms straight with the palms of your hands on top of your legs. Your chin should be as close to your chest bone as comfortable.
3. To sit-up, keep your hands in contact with your legs until your wrists come to the top of your knee caps. When your wrists reach this position, lower to the start position. This should take 3 seconds and is counted as one sit-up. (MP3 with this cadence is downloadable from our site).

## 2.4km Run

As per table

## NOTES

### Warm-up procedures

Every exercise session should be preceded by a period of 5 to 10 minutes of warm-up and stretching, where the body is gradually prepared for the effort to come. The warm-up should be gentle and rhythmic and preferably use the muscles to be involved in the major activity.

After the warm-up you should complete a number of stretching exercises to prepare your muscles for the activity. Stretching exercises should be held for 5 to 10 seconds with no bouncing or pain.

It is strongly advised to see a qualified fitness instructor for a stretching program.

### Cool-down procedures

As with the warm-up, a cool-down period is a vital component of an exercise program. This involves a gradual decrease in the intensity of the exercise, until the body's physiological functions return to the resting state.

Stretching should also be done during this cool-down phase.

### The STATIC Push-up

This is not part of the exercise regime. It is simply a good indicator of overall core strength.
